

Pensions TAS Consultation

ACA sessional meeting
10 September 2009

Agenda

Introduction – Robert Inglis

Consultation overview - Charles Young

Your views

Implementing Generic TASs – Phil Wadsworth

Reliability Objective

The users for whom a piece of actuarial information was created should be able to place a high degree of reliance on the information's relevance, transparency of assumptions, completeness and comprehensibility, including the communication of any uncertainty inherent in the information

Consultation process
